FLAWLESS

“There is no such thing as perfection, only perspective, and you are my flawless clarity”

- Leo Chirstopher

Event Description:-

If coding is your passion and whenever you see a problem you cannot wait to get down to code it, then this is the perfect event for you. Code out with your heart and race with the others to win the battle of wits and will. Be Flawless!

Team Size:-

A team can consist of at most 2 members (Single member teams are also allowed)

Event Timeline and Rules:-

The event will consist of 2 rounds and will be held over the span of two days. Both the round will be coding rounds

Preliminary Round:-

The first round will be an elimination round where the participants will have to solve 5 questions in a duration of 3 hours. The teams will be judged based on the number of problems they will solve and also the time taken to solve the problems. Around 30 teams will move on to the finals.

Final Round:-

The ultimate showdown will take place between the teams selected from the previous round. The duration of this round is going to be 3 hours. The number of questions in this round will be declared on spot on the day of the finals. Again, like the prelims the teams will be judged based on the number of problems they will solve and also the time taken to solve the problems.

The co-ordinators have the right to change the rules and judging criteria of the contest at any time they deem fit.
